

AARON LOEB

DATA SCIENTIST

Analytically minded self-starter with significant data science experience collaborating with cross-functional teams and ensuring the accuracy and integrity of data and actionable insight. I am eager to contribute my skills in quantitative analysing and experimentation to enhance the experience of users around the world

EDUCATIONS

International Engineering University
Aug 2012 – Sep 2016

BACHELOR'S DEGREE IN
MATHEMATICS

International Engineering University
Aug 2018 – Sep 2020

MASTER'S DEGREE IN
MATHEMATICS

RELEVANT COURSE

- Advance programming
- Statistics
- Linear algebra
- Calculus

EXPERIENCE

Data scientist Intern

LARANA, INC
APRIL 2017 – DES 2020

- Developed a program that automated refinement of linear
- Received, fixed, and prepared data from clients to help data scientists build models that resulted in a basis point
- Extracted data from clients and increased agility and accuracy with a centralized system

Senior Data Scientist

LARANA, INC
JAN 2021 – PRESENT

- Created and developed monthly retention by 9 basis points for customers by servicing relevant products features for them
- Conducted testing to solve client pain point in e-commerce platforms, and identified solutions to solve the unclear roadmaps, which reduce the bounce rate up to 67%
- Handling data teams throughout projects, redefining documentation regularly

SKILL

- Programming language
- Machine learning
- Artificial intelligence
- Data visualization
